

Abdul Rahuman M

Principal Product Manager | AI Platform & Sensor Systems

Atlanta, GA (Remote) | abdulrahumanfazi@gmail.com | LinkedIn: /in/MAbdulRahuman

Professional Summary

Strategic and execution-focused Product Leader with over 9 years of experience specialized in AI-driven health-tech solutions, IoT sensor integration, and operational optimization. Currently exercising functional authority over Twin Health's AI Platform, leading cross-functional squads to architect proprietary agentic systems and automated health interventions that drive multi-million dollar COGS savings and significant member outcomes.

Professional Experience

Twin Health Inc. | Mountain View, CA

Principal Product Manager (AI Platform & Sensors) | Oct 2025 – Present

Officially transitioned to U.S. Headquarters to lead the core AI Platform and Sensor Systems function.

- **Functional Management:** Leads a global, cross-functional squad of **11 professional-level personnel**, including Staff AI Engineers, Data Scientists, and Tech Leads, directing the development of proprietary AI agentic frameworks.
- **AI Agentic Systems Architecture:** Architected and launched Twin Health's first generation of production AI agents (e.g., *Ask Your Digital Twin*, *Nutrition Agent*, *Sensor Troubleshooting Agent*), scaling efficacy from 72% to **90%** with a 94/100 answer quality rating.
- **Executive Strategic Planning:** Exercises discretionary authority to set "Big Bet" priorities and quarterly roadmaps, presenting directly to the Chief Product Officer (CPO) to align AI capabilities with company-wide metabolic health reversal KPIs.
- **Operational Transformation:** Designed product-led automation (e.g., *Dexy v2*) for sensor replacements, resulting in **\$3M+ in COGS savings** and reducing L1 support minutes per member by over 65%.

Twin Health [Twins Digital Services India Pvt Ltd] | Chennai, India Principal Product Manager | Jan 2022 – Sep 2025

- **Sensor Platform Leadership:** Led the migration and integration of advanced biosensors

(Dexcom G7, Stelo) and IoT devices (Garmin, Medline), improving 7-day CGM setup rates from 43% to 66%.

- **Revenue & Engagement Optimization:** Exceeded member-SAT based revenue targets by **\$200k** through revamped milestone billing (M-SAT) and Happy 10 initiatives.
- **Prototyping & Technical Innovation:** Conducted 0-1 PoCs for AI-driven mail monitoring and sensor troubleshooting agents, reducing manual handling time for vendor emails from 43 seconds to zero.

Senior Product Manager | Oct 2019 – Dec 2021

- **Global Scaling:** Directed the transition of India and U.S. clinical teams from manual spreadsheets to a unified Zendesk infrastructure for member/doctor issue resolution.
- **Core Product Infrastructure:** Built the initial Sleep Score framework and Onboarding v1/v2, serving as the foundation for the current U.S. mobile app experience.

Zoho Corporation | Associate Product Manager | Jun 2018 – Oct 2019

SAP Labs | Software Engineer 1 & 2 | Dec 2015 – Jun 2018

Key Technical Accomplishments

- **AI/ML Excellence:** Developed and implemented RAG (Retrieval-Augmented Generation) workflows, LLM Judges and "Golden Eval" quality-grading systems for continuous AI improvement.
- **IoT & Mobile:** Led global launches for Garmin SDK upgrades, Dexcom API updates and CGM Migrations, and platform compatibility for Android 14/iOS 17.
- **Analytical Rigor:** Leveraged Mixpanel, Redash, and Snowflake data to reduce app crash rates to 95%+ and drive data-backed prioritization of engineering "spikes".

Education & Skills

- **B.E. Computer Science and Engineering** | Anna University, Chennai
- **Expertise:** AI Agentic Systems, RAG Workflows, IoT/Sensor Lifecycle, Functional Team Management, Strategic Roadmapping, SQL, Prototyping.
- **Tools:** Langfuse, Mixpanel, Zendesk Automation, Redash, LightDash, CleverTap, Snowflake.
